## SUMMARY OF STANDARD OBJECTS OF EXPENDITURE AND SPECIAL CATEGORIES

This is a broad classification by class of expenditure which are grouped into what have been adopted as Standard Objects of Expenditure and Special Categories. The Standard Objects include types of expenditure which are in many instances shown in the details of the Estimates under more informative titles. The Special Categories would therefore be the Special Objects which are not of sufficient importance to warrant inclusion in the Standard Objects but which are of sufficient importance to warrant inclusion in the Estimates.

The Standard Objects are numbered 1-22 and the Special Categories numbered 33-35.

The Objects and Special Categories shown in the Estimates are identified by the number of the Standard Object or Special Category of which they form a part.
